

Update to EVER GIVEN's status in the Suez Canal

29th March 2021

Although the rescue team had originally been scheduled to resume attempts to refloat EVER GIVEN at 14:00 local time in Egypt (20:00 Taipei time), after their site assessment the decision was made to delay that operation while more tugboats are summoned to join the effort. Accordingly, the refloating operation has been postponed to approximately 02:00 – 03:00 local time in Egypt (08:00 – 09:00 Taipei time) on 29th March.

In the meantime, the dredging operation is continuing to make progress. The refloating operation will resume as soon as the additional tugboats arrive to complete the deployment.
