

Statement Pertaining to Release of Ever Given: Agreement in Principle

24th June 2021

Further to the arrest of M.V. Ever Given in Egypt and negotiations between the shipowner and the Suez Canal Authority (SCA), Evergreen Line is pleased to confirm the acknowledgement from the shipowner that an agreement in principle has been reached in respect of the SCA's claims, and a final formal settlement agreement is currently under negotiation.

It may take some further time for the agreement to be concluded, for the vessel to be released from arrest and prepared for onward transit. In the meanwhile, we wish to advise cargo interests who have yet to provide a General Average (GA) security bond to expedite this process in order to avoid further delay in cargo release and delivery at the port of discharge.

For cargo interests who have any questions in processing the GA requirements, please contact GA-administrating adjusters directly using the following contact details:
